The big word this week is that there is a "contract" out on Lt. overnor Jere Beasley and a state senator from Birmingham. Now there may be, but I don't really believe it. The state, investigator, Jerry Grant, is a "nose to the grindstone" type man and real sharp, but the reports on this either fooled Grant or he is just taking no chances. I can't see where getting rid of Beasley would do either inmates or prison guards any good.

R. S. Jones slipped into my No. 1 fishing hole Saturday and came away with 25 of those big ole blue gills that are so blue they look black. Now if the local school system can't keep the teachers out of my favorite fishing places, well . . . I think I will just sit down and cry!

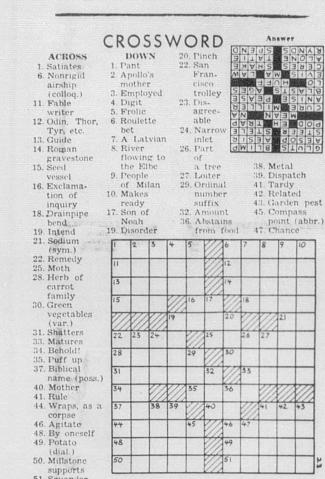

Spring gardens are turning out the fresh vegetables now, and this is good for us who love good food. Last week my parents loaded us up with some of the results of their garden, even shelling the English peas! Being the glutton that I am, I tried to eat turnips and mustard greens, English peas, onions, squash and radishes all at the same time. Of course, I didn't want to take all that without doing something for them, so I caught some fish from their pond and let them have them all

The big wheels of Kleinert's were in town this week looking over the local operation. They brought along some Yankee bankers also. The group had heads together in the conference room Tuesday afternoon and everyone came out smiling. This has got to mean that things are going well and I have hopes of it meaning bigger and better things to come.

The talk that the social security fund is broke has finally become official with the announcement that the administration is seeking ways to bolster the fund with additional taxes or supplement it from the general fund (income tax). It scares me to think that when I reach the point of collecting, there either will not be any or we will be in such a welfare state that it will not do me any good.

I understand that Wednesday's (yesterday's) Daily Ledger (Enterprise) will carry an announcement of the sale of that news- main interest at the meeting. p.m. If this is true and the folks buying it are the ones I hear have purchased the paper, the people of Enterprise have a county-wide beef promotion a lot to look forward to, 'cause they are fine folks.

Sam Collier was talking about some fat deer recently. It seems that he saw four in his bck yard recently and they were fat as butterballs. Maybe it was his wife's roses that kept them so fat. Now I know if he saw them eating those flowers, he would dum is for all cattle owners to have chased them out of the yard and not sat there admiring decide whether or not they want

The main reason we went was to watch the "Chicks" play. The Chicks are made up primarily of women from the Damascus Friday's Results area, and are ranked 3rd in the state. In their first game, the Chicks coasted to a 19-4 win over the Dots, a team from Dothan. The Chicks then whipped the Enterprise Merchants DORSEY 18 - NASCO 2 to move into the finals of the winner's bracket. However, the locals lost to a team from Ozark and were then ousted by the same Enterprise Merchant team they had beaten earlier. belted Nasco 18-2 in a game The Chicks have a good women's softball team, but last stopped after five innings. If you don't think women can hit, you should watch the Merchants. They had a player that hit the ball so well she was intentionally walked every time she got up to bat in her team's final two games. Let me tell va, she could hit a softball. All in all, I was very impressed with the defense played in the tourney. Most of the teams played excellent on defense, and knew exactly what to do with the ball at all times. All the outfielders could throw the ball to home plate without any
